Can be easily transported

Multi-Purpose Weight Testing Bags

Designed for use where weight tests are required for installation and maintenance purposes, including hoists, platform lifts and stair-lifts.

Eliminates the risk of damage to floors etc. unlike conventional steel weights or water systems.

Easy to store and transport, as well as making it easy to calculate how many weight test bags you need for any specific test

Colour coded and labeled

Blue **10kg***

Yellow **15kg***

Orange **20kg***

Constructed using a high grade, durable, non rip and waterproof fabric. All weight test bags feature heavy duty stitching as well as large carry handles

*Please note the internal contents of each bag is a natural product and the final weight may vary +/- 5%
